

Graham Biggs

Customer Support Project Leader

About Graham:

Graham has recently been promoted from C7 inspector to Customer Support Project Leader, and has been with Aero Norway for nearly two years. He has had an extensive and varied career in aviation maintenance including 8 years in the RAF, 5 years at the Pratt & Whitney Norway Engine Centre and 5 years at Heli-One.

“

My broad experience within the aviation maintenance sector as mechanic, inspector, project manager and customer support officer will allow me to make a positive contribution to Aero Norway's development as we move on from what has been a challenging year for the aviation industry.

My focus for the coming months will be to continue to provide our existing customers the high levels of support and service they are accustomed to, as well as assisting to grow Aero Norway's customer base in preparation for the introduction of LEAP capability to our MRO offering. This is an exciting time and I look forward to what is to come.

”
