As an independent CFM56 engine maintenance specialist, Aero Norway has capability of ca. 1400 internal repair and access to over 1000 external repairs. We continuously upgrade repair services and extending repair capabilities for engine parts and components as part of our overall business strategy.

Job description

- Be subject matter expert of CFM56 -3/-5B/-7B part repair and repair processes
- Supports the inspection and project teams to evaluate part damage to determine reparability or deviation requests, and hence coordinate repair requests and activities with internal/external parties and various OEMs
- Support various operations department with implementing new or updated work specifications and plans in line with approved technical data
- Owner of the Aero Norway repair catalogue and responsible to keep catalogue up-to-date.
- Evaluate and analysis of supplier quality and supplier warranty cases
- Develop and optimize together with senior management the Aero Norway CFM56 strategic repair business portfolio, including evaluation of new repairs in house and supporting equipment used in new repairs (shot/ glass bead peening, machining, plasma spray, NDT, welding etc.)
- Liaise with local and global repair vendors for technical reviews
- Participate in the Aero Norway's Lean program.
- Carry out tasks given by the Engineering Manager

Qualifications

- University Degree in aviation or mechanical or manufacturing engineering. Candidates with extensive shop floor experience will also be considered for this position.

- Preferable a minimum of 5 years of experience in repair or overhaul of aircraft engines
- Good business acumen
- Good understanding of manufacturing processes such as machining shot peening, plasma spray etc.
- Good understanding of NDT processes

Abilities

- Good interpersonal skills and the ability to work in a team environment
- Proactive and independent working methods
- Adaptable to work on multiple tasks
- Have excellent problem-solving skills
- Good communication skills in English and Norwegian
- Ability to interact with people from different level of the organisation

We can offer:

- The opportunity to learn and develop your career in an exciting industry.
- You will feel fully involved in the day to day operations of the business and will be able to influence the continued success and growth of a rapidly growing organization.
- Whilst we all work very hard, we have a culture that's relaxed and down-to-earth, positive, and professional.
- A proactive approach to constantly improving processes to ensure a rewarding working day and a good work life balance.
